## EDITORIAL TEAM

### Editor in Chief

1. Dr. Herly Evanuarini, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia

### Editorial Board

1. Prof. Dr. Lilik Eka Radiati, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
2. Prof. Dr. Nurliyani Nurliyani, Department of Animal Products Technology, Faculty of Animal Science, Universitas Gadjah Mada, Indonesia
3. Assoc. Prof. Dr. Mei-Jen Lin, Department of Animal Science, College of Agriculture, National Pingtung University of Science and Technology (NPUST), Taiwan, Province of China
4. Dr. Aera Jang, College of Animal Life Sciences, Kangwon National University, Korea, Republic of
5. Dr. Agus Susilo, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
6. Dr. Imam Thohari, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
7. Dr. Ishamri Ismail, Faculty of Bioresources and Food Industry, University Sultan Zainal Abidin, Malaysia
8. Dr. Mustakim Mustakim, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
9. Dr. Narsih Narsih, Department of Agriculture Technology, Pontianak State Polytechnic, Indonesia

10. Dr. Purwadi Purwadi, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
11. Dr. Xing Chen, State Key Lab. of Food Science and Technology, Jiangnan University, China
12. Esti Widowati, MP, Department of Food Microbiology and Biotechnology, Faculty of Agriculture, Universitas Sebelas Maret, Indonesia
13. Firman Jaya, MP, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia

### Editorial Assistants

1. Mulia W. Apriliyani, MP, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
2. Ria Dewi Andriani, M.Sc, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
3. Premy Puspitawati Rahayu, MP, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
4. Dicky Tri Utama, PhD, Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia
5. Aldyon Restu Azkarahman, M.Sc., Faculty of Animal Science, Universitas Brawijaya, Indonesia

### Technical Editor

6. Viky Budi Hariono, Faculty of Animal Science, Universitas Brawijaya, Indonesia

**Reviewer Volume 15 No 2 2020 (July)**

1. Emer. Prof. Hari Purnomo, Emeritus Professor of Department of Animal Products and Technology, Faculty of Animal Science, Universitas Brawijaya, Indonesia, Indonesia
2. Prof. Dr. Ir. Amran Laga, MS, Faculty of Agriculture, Hasanuddin University
3. Dr. Muhammad Irfan Said, Livestock Production and Technology Study Program, Faculty of Animal Sciences, University of Hasanuddin, Indonesia
4. Yuny Erwanto, Ph.D., Department of Animal Products Technology, Faculty of Animal Science, University of Gadjah Mada, Indonesia
5. Prof. Dr. Irma Isnafia Arief, S.Pt., M.Si., Faculty of Animal Husbandry, Bogor Agricultural Institute
6. Dr. Elvira Syamsir, Faculty of Agricultural Technology, Bogor Agricultural University
7. Dr. Rio Olympias Sujarwanta, S.Pt., M.Sc., Faculty of Animal Science, Gadjah Mada University
8. Dr. Tuti Suryati S.Pt., M.Si., Faculty of Animal Science, Bogor Agricultural University, Indonesia
9. Dr. Widiastuti Setyaningsih, S.T.P., M.Sc., Faculty of Agricultural Technology, Gadjah Mada University
10. Dr. Zakiah Wulandari, S.TP, M.Si., Faculty of Animal Husbandry, Bogor Agricultural University
11. Winny Swastike, S.Pt., M.P., Sebelas Maret University, Indonesia
12. Prof. Sung Ki Lee, PhD, College of Animal Life Sciences, Kangwon National University

## AIM AND SCOPE

The journal will consider primary research and review articles from any source if they make an original contribution to the experimental or theoretical understanding and application of theories and methodologies of some aspects of animal products and technology-related field. It offers reader the opportunity to tap into the future of animal product technology. The journal reports advanced research results in food science, microbiology, biotechnology of animal products, functional food derived from animal products, and current findings in processing technology for animal products. Animal products include meat, dairy, poultry, insects and their by-products. It is essential reading for anyone needing to keep abreast of current findings in animal products and technology.

## PUBLICATION ETHICS

Our Publication Ethics is mainly based on Elsevier policies and Committee on Publication Ethics/COPE's Best Practice Guidelines for Journal Editors. These guidelines should be useful for authors, editorial board, and reviewers. These guidelines are intended to be advisory rather than prescriptive, and to evolve over time. We hope that they will be disseminated widely, endorsed by editors and refined by those who use them.

### *Author's Responsibilities*

#### *Reporting standards*

Original research reports should present an accurate account of the work performed as well as an objective discussion of its significance. Underlying data should be represented accurately in the paper. A paper should contain sufficient detail and references to permit others to replicate the work. Fraudulent or knowingly inaccurate statements constitute unethical behavior and are unacceptable. Review and professional publication articles should also be accurate and objective and editorial opinion works should be clearly identified as such.

#### *Data access and retention*

Authors may be asked to provide the raw data in their study together with the paper for editorial review and should be prepared to make the data publicly available if practicable. In any event, authors should ensure accessibility of such data to other competent professionals for at least ten years after publication (preferably via an institutional or subject-based data repository or other data center),

provided that the confidentiality of the participants can be protected and legal rights concerning proprietary data do not preclude their release.

#### *Originality*

Authors will submit only entirely original work, and will appropriately cite or quote the work and/or words of others.

#### *Plagiarism and copyright*

Plagiarism ranges from the unreferenced use of others published and unpublished ideas, including research grant applications to submission under "new" authorship of a complete paper, sometimes in a different language. It may occur at any stage of planning, research, writing, or publication: it applies to print and electronic versions. All sources should be disclosed, and if large amounts of other people's written or illustrative material are to be used, permission must be sought. This journal requires authors to declare that the work reported is their own and that they are copyright owner (or else have obtained the copyright owner's permission).

#### *Multiple, redundant or concurrent publication*

An author should not in general publish manuscript describing essentially the same research in more than one journal or primary publication. Submitting the same manuscript to more than one journal concurrently constitutes unethical publishing behavior and is unacceptable. In general, an author should not submit for consideration in the authors and editors of the journals concerned must agree to

the secondary publication, which must reflect the same data and interpretation of the primary document. The primary reference must be cited in the secondary publication.

#### *Acknowledgement of sources*

Proper acknowledgment of the work of others must always be given. Authors should also cite publications that have been influential in determining the nature of the reported work.

#### *Authorship of the paper*

Authorship should be limited to those who have made a significant contribution to the conception design, execution, or interpretation of the reported study. All those who have made significant contributions should be listed as co-authors.

The corresponding author ensures all contributing co-authors and no uninvolved person are included in the author list. The corresponding author will also verify that all co-authors have approved the final version of the paper and have agreed to its submission for publication.

#### *Disclosure and conflicts of interest*

All authors should disclose in their manuscript any financial or other substantive conflict of interest that might be construed to influence the result or interpretation of their manuscript. All sources of financial support for the project should be disclosed. Examples of potential conflicts of interest which should be disclosed include employment, consultancies, stock, ownership and honoraria, paid expert testimony, patent applications/registrations, and grants or other funding. Potential conflict of interest should be disclosed at the earliest stage possible.

#### *Fundamental error in published works*

When author discovers a significant error or inaccuracy in his/her own published work, it is the author's obligation to promptly notify the journal editor or publisher and to cooperate with the editor to retract or correct the paper in form of an erratum.

**TABLE OF CONTENTS**

Editorial Team.....	I
Aim and Scope.....	II
Publication Ethics.....	III
Beef Salt-Soluble Proteins and Seaweed ( <i>Eucheuma cottonii</i> ) Flour Interactions to the Quality of Heat-Induced Gel Matrix Development <i>Aris Sri Widati, Djalal Rosyidi, Lilik Eka Radiati, Happy Nursyam.....</i>	61-68
Pandan Wangi ( <i>Pandanus amaryllifolius</i> Roxb.) Leaves Extract as Flies Repellent and Its Effect on Organoleptic Qualities of Chicken Meat <i>Arif Ismanto, Hosni Mubarak, Fikri Ardhani.....</i>	67-77
Sensory Property and Benzo(a)Pyrene (Bap) Level in Se'i Processed from Cull Bali Cow Beef <i>Gemini Ermiani Mercurina Malelak, Maria R. Deno Ratu, Gusti Ayu yudiwati Lestari, Imanuel Benu, I Gusti Ngurah Jelantik.....</i>	78-85
Aqueous Leaf Extract of Senduduk ( <i>Melastoma malabathricum</i> L.) Could Improve the Physicochemical Properties of Beef Sausage Dough <i>Suharyanto Suharyanto, Henny Nuraini, Tuti Suryati, Irma Isnafia Arief, Dondin Sajuthi.....</i>	86-96
The Substitution Effects of Tapioca Starch and Beetroot Powder as Filler On The Physical and Sensory Characteristics Of Chicken Sausage <i>Winnie Swastike, Edi Suryanto, Rusman Rusman, Chusnul Hanim, Jamhari Jamhari, Yuny Erwanto, Jumari Jumari.....</i>	97-107
The Physical and Organoleptic Characteristics of Ground Rabbit Dendeng Fermented with <i>Lactobacillus plantarum</i> <i>Anik Fadlilah, Djalal Rosyidi, Agus Susilo.....</i>	108-118
The Effect of Elephant Foot Yam ( <i>Amorphophallus campanulatus</i> ) Flour and Soybean Oil Addition on the Physicochemical and Sensory Properties of Beef Sausage <i>Eny Sri Widiastuti, Djalal Rosyidi, Lilik Eka Radiati, Purwadi Purwadi.....</i>	119-130
